No I didn't give them any firm date, but they are looking to draft a letter by the first week of February. If we have any input on the issue before that, I am sure we could get a call together with the Corps. Otherwise she said that they were planning on providing us a draft of their response for our input. I figure at the very least we should have our thoughts together so we can provide a fast turnaround.

I'll check in early next week to see if we want to get a call together with the Corps prior to their draft letter.
